

Phoenix Audio Technologies Partners with CCS Presentation Systems

IRVINE, Calif.— [Phoenix Audio Technologies](#) announced today that [CCS Presentation Systems, Inc](#) has become a certified national partner. CCS now offers Phoenix Audio's product lines as part of its Unified Communications (UC) portfolio. Phoenix Audio's [Spider](#) family of products and [Condor](#) Beamforming Microphone Array address a unique business need in today's market, providing CCS with a distinct service advantage.

"We pride ourselves on designing easy-to-install, easy-to-use, high quality audio products that are adaptable for various conferencing environments," says Jonathan Boaz, Phoenix Audio VP of Sales and Marketing. "The partnership with CSS allows us to extend our reach and provide their large pool of clients with the right audio endpoints to fit their evolving needs."

The collaboration between CCS and Phoenix Audio offers additional convenient options that support the needs of various industries, including corporate, education, and health care. With the Spider conference phone, customers will enjoy quality audio and connectivity that addresses both videoconferencing and audio conference meetings. Additionally, the Condor—a sleek 48-inch wide multi-microphone—will help declutter a conference room and can easily connect to any video conferencing system, use any external sound bar or monitor's internal speakers. With 25 years of experience, CCS' professional staff will help plan and install all types of audio visual communications systems built to meet a variety of needs.

"CCS is thrilled to partner with Phoenix Audio to offer our customers user-friendly audio solutions and an opportunity to change the dynamics of a conference room," said John Godbout, CEO of CCS Presentation Systems. "Whether customers are looking to declutter a conference table or need simple video conferencing system audio solutions, CCS' experienced staff is pleased to design an audio video system tailored to our client's needs."
