

Phoenix Audio Technologies to Showcase the Spider at BroadSoft Connections 2014: *Power Up*

IRVINE, Calif.—([BUSINESS WIRE](#)) —Phoenix Audio Technologies announced today that it will be exhibiting at BroadSoft Connections 2014: *Power Up*. BroadSoft, the leading, worldwide innovator of Voice over IP (VoIP) applications, is hosting its annual users conference, which will take place October 12-15 in Scottsdale, Arizona.

“The Spider is the perfect conference phone for increasing productivity in a Unified Communication (UC) environment, and we are thrilled to have the opportunity to demonstrate it for the first time at BroadSoft Connections,” says Phoenix Audio Technologies’ CEO Joseph Marash. “Interoperability of our Spider conference phone with the BroadSoft® platform will open new and exciting opportunities for the BroadSoft partners.” Phoenix Audio has been a trusted name in audio innovation for over thirty years, always using the latest technology in order to provide the optimum conference room experience. The Spider’s dual-connectivity ability allows users to simplify conferencing by enabling the use of a single conference device for both their VoIP and telephony platforms. The Spider’s high quality audio is a critical component that can contribute to an increase in a company’s efficacy.

About Phoenix Audio Technologies

Based in Southern California, Phoenix Audio Technologies is a world leader in real-time audio communication solutions. We’re driven to provide top quality, crystal clear, full-duplex audio solutions for Voice over IP (VoIP), web conferencing, distance learning, and video conferencing applications. Phoenix is on the leading edge of developing innovative products such as microphones, speakerphones, conference phones, PCI products, and other audio accessories that improve the performance of existing conferencing devices. Our technologies can increase productivity by enabling people to communicate freely and naturally in the workplace.
