SEIU - United Healthcare Education Fund "Ed Fund" Upgrades Their Conferencing Spaces with the Stingray

As the trusted accelerator for healthcare careers, SEIU Empowers the diverse healthcare workforce to advance in a changing environment through innovative education and training solutions. The Education Fund offers free career counseling, as well as a variety of programs designed to help people succeed in their current position and/or move up into a new job.

The Problem

SEIU needed to equip five collaboration spaces with video conferencing capabilities and Zoom compatibility. With no on-staff IT they needed a solution that would be user friendly to operate and manage. [Perfect Video Conferencing](#) was tasked with meeting the requirements that each room needed to provide them with clear audio, ease of use, and budget friendly.

Our Solution

Perfect Video Conferencing outfitted five collaboration spaces with our Stingray DSP Mixer, the Sennheiser TeamConnect Ceiling, and Kramer AMP and speakers. The end users at SEIU now have a "set it, forget it" solution that's providing them with the high-quality audio experience they needed.

The Outcome

"My expectations have been exceeded and all of our users are extremely happy. I highly recommend the combination of the Stingray and the Sennheiser Ceiling Tile for any Zoom Room" - Greg Cross, Associate at SEIU.
